Basic Plus Lip & Tape

- Basic Plus—3N1 LT Underlayment
(2mm Polyethylene and .5 film)
- Materials: Closed Cell Polyethylene, Foam, Film, Tape
- Roll Size: 200 sqft
- Color: Blue
- Thickness: 2.5mm
- Width: 48"
- Weight Per Roll: 6lbs
- Moisture Barrier: .5 mil PE (Bottom) Lip Extended 3" beyond pad material; tape included on film opposite lip side

INSTALLATION:

1. Roll out underlayment.
2. On the second roll, remove pressure sensitive tape and overlap the plastic, careful not to overlap foam and press tape into lip to create a continuous moisture barrier. The unfinished-smooth side should face down, with the film side facing up.
3. To ensure moisture barrier, end seams must be taped.
